**Annual Integrated Pest Management Report
For School Year 2020 – 2021**

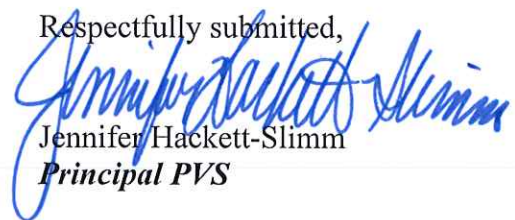

Dear Harrison Township Board of Education:

This report is being submitted to comply with the New Jersey School Integrated Pest Management Act N.J.A.C. 7:30-13.2(d). I have reviewed the Integrated Pest Management Plan for this past school year and hereby report the following:

- The Principal's Office currently maintains a binder that includes the Board Policy; the School Integrated Pest Management Plan; The Annual Integrated Pest Management Notice (also located on the District Website) and a log of all pesticide use.
- The Plan included monthly services and inspection by Hoffman's Exterminating Co., Inc. The only applications utilized during the school year were the use of low impact pesticides such as rodent traps, exempt dust and exempt granular.
- The IPM Coordinator has requested Material Safety Data Sheet (MSDS/SDS) from the Exterminator to be maintained in the binder and in the Nurses Office.

I hereby report that it appears that the IPM Plan in place is working effectively.

Respectfully submitted,

Jennifer Hackett-Slimm

Principal PVS
